How to Create Works Cited Lists in MLA Style

For more information on how to create works cited/bibliography listings for sources not covered in this handout, please see the *MLA Handbook for Writers of Research Papers, 8th ed.* available at the SJCD Library.

**CHANGE FROM 7th EDITION:**
- Place of publication, date of access, and medium of publication is no longer required.
- Issues of scholarly journals are now identified with, for instance, “vol. 64, no. 1”
- Page numbers are designated with p. or pp.
- The URL (without http:// or https://) is now normally given for a Web source.

All citations on your actual Works Cited page should be double spaced and alphabetically listed. Always indent the second line of your entries.

**PRINT SOURCES**

<table>
<thead>
<tr>
<th>Books:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Author. Title. Edition (if listed). Publisher, Copyright date.</td>
</tr>
</tbody>
</table>
