How to Create Works Cited Lists in Chicago (CMS) or Turabian Style

The material below focuses primarily on one of the two CMS documentation styles: the Notes-Bibliography System (NB), which is used by those in literature, history, and the arts.

In addition to consulting the *The Chicago Manual of Style*, 16th edition, for more information, students may also find it useful to consult Kate L. Turabian's *Manual for Writers of Research Papers, Theses, and Dissertations*, 7th edition.
