Title of Your Research Paper

Jane D. Stimpson

San Jacinto College
Abstract

The Purdue OWL provides these tips for writing an abstract in APA format: “On the first line of the abstract page, center the word “Abstract” (no bold, formatting, italics, underlining, or quotation marks). Beginning with the next line, write a concise summary of the key points of your research. (Do not indent.) Your abstract should contain at least your research topic, research questions, participants, methods, results, data analysis, and conclusions. You may also include possible implications of your research and future work you see connected with your findings.

Your abstract should be a single paragraph double-spaced. Your abstract should be between 150 and 250 words. You may also want to list keywords from your paper in your abstract. To do this, indent as you would if you were starting a new paragraph, type Keywords: (italicized), and then list your keywords. Listing your keywords will help researchers find your work in databases.”

Keywords: abstract, APA, research, keywords
Retype Your Research Paper Title Again

Start typing your research paper. Indent every paragraph by pressing Tab once. Keep going until you have answered all the questions on your research assignment sheet. Remember to see the Writing Center tutors if you need help editing and organizing your paper. You can also contact librarians for help with in-text citations and references in APA format.
